TABLE OF WORK EFFORT - INSTRUCTIONS

Please do not include these instructions in your proposal.

Include rows for all personnel, whether paid or unpaid, in all three tables and include placeholders for any postdocs, students, etc., who are not specifically identified by name in the proposal. Add rows as needed for large teams. List work efforts by proposal years only, not by fiscal years. Because collaborators are by definition unpaid, you may enter "n/a" in the paid FTE columns in the topmost table, "Work Efforts to be funded by this proposal."

DO NOT include any explanatory text for this table. Descriptions of roles and responsibilities belong in the Scientific, Technical, and Management section of the proposal (within the 15-page limit, unless otherwise stated).

All work efforts should be given in fractions of a person-work-year (where a year is a 12-month year, not a 9-month academic year).
