

notify NIOSH at least 90 days before disposing of the records and transmit the records to NIOSH if so requested.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting an adjustment decrease from 334 to 319 hours (a decrease of 15 hours). In the previous ICR, OSHA erroneously requested OMB approval of 334 hours rather than 317 hours. The additional 2 hours (to 319 hours) is due to the way OSHA is now doing its calculations. There is no change in cost under Item 13.

The agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements contained in the MDA Standard.

Type of Review: Extension of a currently approved collection.
