

IMPORTANT
THESE REQUIREMENTS MUST BE READ.
They are a part of the Exhibit Application.

After completion, this page must be attached to the copy retained by the Sponsor.

REQUIREMENTS

1. All questions on the, Exhibit Application should be completed. If a question is not applicable, the response should state that fact.
2. NASA exhibits are available for professional, trade, civic, educational, or public service events. Use of NASA exhibits must give no unfair commercial advantage. This criterion normally rules out individual businesses and advertising uses, but not events that public relations firms organize for public service or educational sponsors.
3. There must be no admission fee charged for a NASA exhibit. Although a NASA exhibit may be part of a larger exposition which charges an admission fee, such as a state fair, it may not be the major attraction of such an event.
4. NASA exhibit requests for fund raising events benefiting a single organization or events sponsored by religious or political groups, are normally not approved.
- ~~5. The sponsor assumes all shipping expenses to and from the place of exhibition.~~ NOT APPLICABLE
6. The sponsor shall provide able-bodied labor (4-6 people for 8 hours per day) to unload, uncrate, set-up and take-down, crate and load aboard the common carrier. All other expenses including property insurance, adequate indoor storage of empty crates, daily exhibit maintenance, utility hookup, shall be borne by the sponsoring organization.
7. Title to the NASA exhibit furnished by the Government shall remain in the Government. The sponsor shall maintain adequate property control records of the Government-furnished exhibit in accordance with sound business practice.
8. During the period the NASA exhibit is in the custody of the sponsor, the sponsor will pay expenses relating to its operation, including maintenance and repair. During this period the sponsor assumes the risk of, and is responsible for, any loss of, or damage to, the exhibit except for reasonable wear and tear. (The sponsor will contact NASA before effecting any repairs.)
9. The sponsor assumes responsibility for any liability, damages or injuries to persons or property arising out of or in any way connected with the sponsor's possession or use of the exhibit(s), and shall hold the Government harmless against any claims arising hereunder.
10. Federal law prohibits any member of, or delegate to the U.S. Congress, or Resident Commissioner, from sharing in or benefiting from this agreement.
- ~~11. When necessary, and at the expense of the sponsor, NASA will provide an Exhibits Specialist to supervise the uncrating, set up and take down of complex exhibits. The sponsor will be notified when it is necessary for an Exhibits Specialist to be on-site. — Not Applicable~~
12. Compliance with the Civil Rights Act of 1964, as amended, will be required as it applies.
13. The sponsor may be required to carry insurance covering loss or damage to the exhibit(s), persons or property. The requirement of insurance and the minimum amount (if specified) will be shown in the Exhibit Loan Agreement. Insurance is required for exhibits loaned to state, county, municipal, and city entities, including organizations such as educational institutions established by those entities.
14. All exhibits shall be displayed indoors unless written exception is given. The specific location of exhibits will be agreed upon by the sponsor and NASA before the loan agreement is approved. Once finalized, approval must be granted by NASA before the exhibit can be moved to another location.
15. The sponsor shall not assign to another person or entity this agreement or any part of the rights under this agreement, except as otherwise agreed to by the United States in writing.

EXHIBIT DATA

TOTAL EXPECTED ATTENDANCE	ATTENDANCE AT SIMILAR EVENT	POPULATION OF CITY/TOWN
---------------------------	-----------------------------	-------------------------

WHAT OTHER SPACE-RELATED EXHIBITS ARE COMMITTED? *(Include the type of exhibit committed by industry, government or other sources)*

ADMISSION TO BE CHARGED? *

NO YES AMOUNT _____ PROCEEDS TO GO TO: _____

WILL EXHIBIT EXCEED 20% OF TOTAL SPACE? YES NO

** A separate admission charge may not be made to view the NASA exhibit, nor can any admission increase be effected because of the addition of NASA exhibits. Where a GENERAL admission charge is made and the NASA exhibit exceeds 20% of the entire exposition, additional information concerning the total event's budget and distribution of proceeds will be required before NASA can accept an invitation to participate.*

WILL THERE BE REGULARLY SCHEDULED, FULL-TIME GUARDS OR SECURITY PROTECTION FOR THE GOVERNMENT EXHIBIT? (If NO, indicate the alternate precautions that will be taken) YES NO

Regular Security coverage for museum is sufficient

DOES THE SPONSOR CARRY PROPERTY INSURANCE THAT WILL PROTECT GOVERNMENT EXHIBITS AGAINST ANY LOSS OR DAMAGE WHILE IN ITS CUSTODY? **REPLACEMENT COST FOR EXHIBIT IS APPROXIMATELY \$2 Million**

YES (State the amount of coverage and name of insurance company, _____)

NO (If NO, answer the following:)

DOES THE SPONSOR AGREE TO OBTAIN SUCH INSURANCE IN SUFFICIENT AMOUNTS AS THE GOVERNMENT MAY REQUIRE? YES NO

~~DOES THE SPONSOR AGREE TO PAY TRAVEL AND OVERTIME EXPENSES INCURRED BY NASA EXHIBITS SPECIALIST(S) FOR SETUP, DISMANTLING, AND STAFFING OF THE EXHIBIT IF REQUIRED?~~ YES NO
NOT APPLICABLE

SEND A SCALE DRAWING, INCLUDING DIMENSIONS, OF THE DISPLAY AREA THAT NASA EXHIBITS WILL OCCUPY SPECIFYING:

Width, depth, and ceiling (maximum and minimum height) Display area must be between 2,000 and 2,500 sq ft, and
Floor obstructions (dimensions between pillars, etc.) must have hard-wire internet connection available.
Size of door openings/freight elevators or other structures through which the exhibits must be
moved 110V 220V TOTAL KILOWATTS: _____

ADDITIONAL REMARKS

Addendum:

The museum venue will provide 4-6 able-bodied workers to help with installation and de-installation, unpacking and packing, etc. They must be available 8 hrs per day for all five days of the weeks of installation and de-installation. Museum is responsible for providing equipment required for installation/de-installation, which includes: 2 Ladders (8 ft. tall); a genie/scissor lift; a pallet jack or forklift with a trained operator (depending on the layout of the museum and loading dock); and furniture dollies, hand trucks, or lever bars. If the museum/venue does not have access to some/any of these workers or tools, they may discuss this with NASA staff to determine alternative options and methods for installing and de-installing the exhibit. In the event that the full staff and equipment are not made available, portions of the exhibit may not get installed. Museum must also have a loading dock or other sufficient space for loading/unloading that is accessible, at the time of both unloading for installation and loading after de-installation, for 53' long tractor trailers.

Museum is also responsible for determining best route for offloading exhibit crates from shipping trucks to exhibit display space, and ensuring necessary equipment is available to do so.

Sponsor must be able to provide storage for exhibit crates during the duration of exhibit possession. If storage is located off-site in a third-party location, the sponsor is responsible for all additional storage costs and costs of shipping crates to and from the storage location.

In the event that the installation or de-installation dates cannot be met due to an unforeseen emergency (e.g. inclement weather, pandemic spikes), the museum will work with NASA to identify and implement a scheduling solution.
