

# NASA eClips™ Exhibits at the NISE Network Partner Meeting

## National Informal STEM Education (NISE) Network

Earth and Space Science Partner Meeting  
February 14-15, 2019  
Tempe, Arizona

- 600 museum and science center staff attended
- NASA Spotlights were highlighted at the NASA eClips exhibit table
- Educators registered for additional information about the Spotlights Engineering Design Challenge
- Joan Harper-Neely, NASA eClips team member, co-presented the session ***“Incorporating Earth and space science content into your summer camp”*** with six other NISE partners.
- Meeting participants learned to enhance their public engagement efforts related to Earth and space science by using NISE Network and NASA Science Activation products and resources.
