

# NASA eClips™ at the American Geophysical Union Fall Conference

Dr. Brad Davey, internal evaluator of the NASA eClips 4D program, presented the professional paper, “The NASA eClips 4D Program: Impacts from the First Year Quasi-Experimental Study,” at the American Geophysical Union (AGU) Fall Conference on December 15, 2017. The presentation was delivered to 30 audience members consisting of scientists and formal/non-formal educators.

This paper was co-authored with Dr. Davey’s colleague Hillarie Davis of the Technology Learning Consortium, Inc. and the National Institute of Aerospace’s Dr. Sharon Bowers and Joan Harper-Neely.
