

NASA eClips™ STEM Night at Local Elementary School

On Tuesday, March 20, 2018 Betsy McAllister, Hampton City School Educator in Residence at the National Institute of Aerospace (NIA), engaged families in a hands-on demonstration at Tucker Capps Elementary School illustrating the importance of nondestructive testing to engineering, science, and technology.

NASA eClips™ Mission:

To provide educators with standards-based videos, activities & lessons that increase STEM literacy through the lens of NASA.

Over 65 participants learned about the contributions NASA has made in the field of Nondestructive Evaluation (NDE) to ensure the early detection of flaws that can prevent severe damage to a component, eliminate inefficiency or failure of a system, as well as guard against injury.
