

# GLOBE Teacher Workshop in VA

On August 16, 2017 the NASA Langley GLOBE Partnership led two GLOBE Workshops for teachers from *Saint Mary Star of the Sea School* in Hampton, VA and *Our Lady of Mount Carmel School* in Newport News, VA.

- Seven elementary teachers attended the Elementary GLOBE session, led by trainers Tina Harte and Elizabeth Joyner; focusing on the process of environmental data collection through the development of literacy skills.
- Two middle school teachers attended the GLOBE Hydrology Training led by teacher intern, Wanda Hathaway and assisted by Jessica Taylor and Marile Colon-Robles, during which teachers had the opportunity to become trained in a variety of hydrology protocols that they will implement in their classrooms.
