Infiniscope Digital Teaching Network Brings Apollo 50 and Summer of Space Resources to Librarians

Librarians from across the country discovered the free resources available to complement their summer and after school programming. These librarians were specifically excited about visualizations and interactives such as:

- *Apollo 50th Anniversary*
 - supplementing Apollo programming
- *Stellar Nursery*
 - supplementing night sky events
- *Insight Experience* and *OSIRIS-Rex Timeline*
 - supplement to robotics programming

209 school and public librarians from 37 states and D.C. were excited to join the Infiniscope Digital Teaching Network. Librarians were recruited during Hyperwall talks and demonstrations held within the NASA booth at American Library Association in Washington, D.C. from June 21-24, 2019.

128 new members come from public libraries and 37 from K-12 schools
