

NASA eClips™ Spotlight Student Producer Presents Video at Langley Air Force Base's STEM Mixer

On Wednesday, August 23, 2017, Joan Harper-Neely, STEM Education Specialist for NASA eClips™, and Christian Mouton, student producer from Hampton High School, attended the Armed Forces Communication and Electronics Association (AFCEA) STEM Mixer. Christian presented to a group of 75 service members and guests the NASA eClips™ Spotlight video on Physical Change which his team produced during a workshop at NIA this past summer. NASA Spotlight videos correct science misconceptions and are embedded in science lessons that will be used in science classrooms this fall to improve scientific literacy as aligned to the NASA eClips™ 4D SMD Top level goals.
