PLANETS @ Home

June 29, 2020

Introducing a NEW resource for youth ages 8-14 years!

Play the *Space Hazards* game!

The goal of the game is to learn about potential hazards on Earth and in space and to identify possible mitigation strategies for them. The game is based on matching cards and can be played with one or more players.

Coming in July – two more exciting planetary science activities!

Ask a planetary scientist a question at www.planets-stem.org/planets-at-home/ We will answer them on social media every Wednesday.

PLANETS @ Home was created as a response to COVID-19 to provide families with access to high quality self-directed STEM games and fun activities that ignite a spark for learning about NASA science.
